Penguard HSP ZP E

Product description

This is a two component amine cured epoxy coating. This product is LEED compliant and contains no solvents on the Hazardous Air Pollutants (HAPs) list. It is a fast drying, zinc phosphate pigmented, high solids, high build product. Specially designed for new construction where short dry to handle and over coating times are required. To be used as primer in atmospheric environments. Suitable for properly prepared carbon steel substrates.

Typical use

Suitable for structural steel and piping to be exposed to corrosive environments. Recommended for power plants, airports, buildings, refineries and mining equipment. Designed as a primer for Jotun’s Steelmaster intumescent thin film passive fire protection coatings.

Approvals and certificates

This product contributes to the Green Buildings Standard credits. Please see section Green Building Standards.

Additional certificates and approvals may be available on request.

Other variants available

Surface preparation

To secure lasting adhesion to the subsequent product all surfaces shall be clean, dry and free from any contamination.

Optimum performance, including adhesion, corrosion protection, heat resistance and chemical resistance is achieved with recommended surface preparation.

Application

Application methods

The product can be applied by

Spray: Use airless spray.

Brush: Recommended for stripe coating and small areas. Care must be taken to achieve the specified dry film thickness.

Product mixing ratio (by volume)

Penguard HSP ZP E Comp A: 4 part(s)
Penguard HSP E Comp B: 1 part(s)
Technical Data Sheet
Penguuard HSP ZP E

Thinner/Cleaning solvent
Thinner: Jotun Thinner No. 26

Thinning is not normally required. Consult the local representative for advice during application in extreme conditions. Do not thin more than allowed by local environmental legislation.

</tbody>
</table>

For maximum overcoating intervals, refer to the Application Guide (AG) for this product.

Drying and curing times are determined under controlled temperatures and relative humidity below 85 %, and at average of the DFT range for the product.

Surface (touch) dry: The state of drying when slight pressure with a finger does not leave an imprint or reveal tackiness.

Walk-on-dry: Minimum time before the coating can tolerate normal foot traffic without permanent marks, imprints or other physical damage.

Dry to over coat, minimum: The recommended shortest time before the next coat can be applied.

Dried/cured for service: Minimum time before the coating can be permanently exposed to the intended environment/medium.

Induction time and Pot life

</tbody>
</table>

Peak temperature duration max. 1 hour.
The temperatures listed relate to retention of protective properties. Aesthetic properties may suffer at these temperatures.

Product compatibility

Depending on the actual exposure of the coating system, various primers and topcoats can be used in combination with this product. Some examples are shown below. Contact Jotun for specific system recommendation.

Previous coat: epoxy, epoxy mastic, zinc epoxy, zinc silicate
Subsequent coat: acrylic, epoxy, polyurethane, polysiloxane

Packaging (typical)

<table>
<thead>
<tr>
<th></th>
<th>Volume (litres)</th>
<th>Size of containers (litres)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Penguard HSP ZP E Comp A</td>
<td>16</td>
<td>20</td>

<tr>
<td>Penguard HSP ZP E Comp B</td>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>

The volume stated is for factory made colours. Note that local variants in pack size and filled volumes can vary due to local regulations.

Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Shelf life at 23 °C

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Penguard HSP ZP E Comp A</td>
<td>12 month(s)</td>
</tr>
<tr>
<td>Penguard HSP ZP E Comp B</td>
<td>24 month(s)</td>
</tr>
</tbody>
</table>

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Green Building Standards
This product contributes to Green Building Standard credits by meeting the following specific requirements:

**LEED®v4 (2013)**
- EQ credit: Low emitting materials
- VOC content for Industrial Maintenance Coatings (250 g/l) (CARB (SCM) 2007) and emissions lower than or equal to 0.5 mg/m³ (CDPH method 1.1).

**MR credit: Building product disclosure and optimization**
- Material Ingredients, Option 2: Material Ingredient Optimization, International Alternative Compliance Path - REACH optimization: Fully inventoried chemical ingredients to 100 ppm and not containing substances on the REACH Authorization list – Annex XIV, the Restriction list – Annex XVII and the SVHC candidate list.
- Environmental Product Declarations. Product-specific Type III EPD (ISO 14025;21930, EN 15804).

**LEED® (2009)**
- IEQ Credit 4.2: The VOC requirements of Green Seal Standard GC-03, 1997.

**BREEAM® International (2016)**
- Mat 01: Product-specific Type III EPD (ISO 14025;21930, EN 15804).

**BREEAM® International (2013)**

**BREEAM® NOR (2012/2016)**
- Mat 1.5/01: This product Safety Data Sheet confirms that the product does not contain any substances on the Norwegian A20 list.

This product is tested by RISE Research Institutes of Sweden/SP Technical Research Institute of Sweden or Eurofins in accordance with ISO 16000-9/10 (2006) and CDPH method 1.1 (2010).

The EPDs are available at www.epd-norge.no

---

**Caution**

This product is for professional use only. The applicators and operators shall be trained, experienced and have the capability and equipment to mix/stir and apply the coatings correctly and according to Jotun’s technical documentation. Applicators and operators shall use appropriate personal protection equipment when using this product. This guideline is given based on the current knowledge of the product. Any suggested deviation to suit the site conditions shall be forwarded to the responsible Jotun representative for approval before commencing the work.

---

**Health and safety**

Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not inhale spray mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

---

**Colour variation**

When applicable, products primarily meant for use as primers or antifoulings may have slight colour variations from batch to batch. Such products may fade and chalk when exposed to sunlight and weathering.

---

**Disclaimer**

This Technical Data Sheet supersedes those previously issued.

The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) and the Application Guide (AG) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com
