Megaspeed Undercoat

Product description

This is a two component polyurethane coating. Designed as a fast drying, sandable undercoat. Can be used as sealer on epoxy primers in atmospheric environments.

Typical use

Exterior areas, including hull, above waterline and superstructure. To be used as a sealer on epoxy primers.

Colours

white, grey

Product data

<table>

Application

Application methods

The product can be applied by

Spray: Air-fed pressure pot/"air-mix" or traditional air-fed pot gun. Airless spraying is not recommended.

Brush: Recommended for stripe coating and small areas. Care must be taken to achieve the specified dry film thickness.

Roller: May be used for small areas. Not recommended for first primer coat. Care must be taken to achieve the specified dry film thickness.

Product mixing ratio (by volume)

Megaspeed Undercoat Comp A 4 part(s)
Megaspeed Undercoat Comp B 1 part(s)

Thinner/Cleaning solvent

Thinner: Jotun Thinner No. 18

**Technical Data Sheet**  
**Megaspeed Undercoat**

| Dried/cured for service | 12 d | 5 d | 2 d |
---|---|---|---|

Drying and curing times are determined under controlled temperatures and relative humidity below 85%, and within the DFT range of the product.

Surface (touch) dry: The state of drying when slight pressure with a finger does not leave an imprint or reveal tackiness. Dry sand sprinkled on the surface can be brushed off without sticking to or causing damage to the surface.

Walk-on-dry: Minimum time before the coating can tolerate normal foot traffic without permanent marks, imprints or other physical damage.

Dried to over coat, minimum: The shortest time allowed before the next coat can be applied.

Dried to over coat, maximum, atmospheric: The longest time allowed before the next coat can be applied without any surface preparation.

Dried/cured for service: Minimum time before the coating can be permanently exposed to the intended environment/medium.

---

**Induction time and Pot life**

| Paint temperature | 23 °C |
---|---|
| Induction time | 15 min |
| Pot life | 6 h |

---

**Product compatibility**

Depending on the actual exposure of the coating system, various primers and topcoats can be used in combination with this product. Some examples are shown below. Contact Jotun for specific system recommendation.

- **Previous coat:** epoxy, polyurethane
- **Subsequent coat:** polyurethane

---

**Packaging (typical)**

| Megaspeed Undercoat Comp A | Volume (litres) | Size of containers (litres) |
---|---|---|
| 2 | 2.5 |
| Megaspeed Undercoat Comp B | 0.5 | 0.75 |

The volume stated is for factory made colours. Note that local variants in pack size and filled volumes can vary due to local regulations.

---

**Storage**

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

---

Date of issue: 1 August 2014  
by Jotun Group

This Technical Data Sheet supersedes those previously issued.  
The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) and the Application Guide (AG) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com
Shelf life at 23 °C

Megaspeed Undercoat Comp A 36 month(s)
Megaspeed Undercoat Comp B 36 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Caution

This product is for professional use only. The applicators and operators shall be trained, experienced and have the capability and equipment to mix/stir and apply the coatings correctly and according to Jotun’s technical documentation. Applicators and operators shall use appropriate personal protection equipment when using this product. This guideline is given based on the current knowledge of the product. Any suggested deviation to suit the site conditions shall be forwarded to the responsible Jotun representative for approval before commencing the work.

Health and safety

Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not inhale spray mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

Colour variation

Products primarily meant for use as primers and antifoulings may have slight color variations from batch to batch. Such products may fade and chalk when exposed to sunlight and weathering.
