Majestic True Beauty Matt(NEW)

Product description

Type
This product is a premium water based acrylic paint that delivers true colour experience, transforming your home into a beautiful, desirable space. Your walls will have a luxurious colour with a smooth finish that is easy to clean. Jotun’s exclusive True Colour™ Technology ensures precise and uniform colours, uniquely formulated using high-quality materials. With Jotun’s EcoHealth™ promise, you can be assured that the paint is safe for you and the environment. It has a Matt finishing.

Features and benefits
True Colour Experience - Deliver rich colour hues.

Luxurious Smooth Finish - Fine quality that no others can emulate.

Superior Easy Clean - Remove wall stains at home easily without losing its rich colour and lustre.

EcoHealth - Free from harmful chemicals such as APEO, formaldehyde, heavy metals and has low volatile organic compound (VOC).

Anti-Bacteria & Anti-Fungal: Prevent the spread of bacteria and growth of fungus indoors.

Perfect Colour In 2 Coats - Gives you the perfect colour in just 2 coats of paints.

Low Odour - Has a low odour during and after application.

Recommended use
For interior application, suitable for new buildings or repainting.

Substrate
On concrete, masonry surfaces and soft board surfaces.

Product data

Packaging size
Packing may vary from country to country according to local requirements.

Colours
As per colour card and available in Jotun Multicolor tinting system (Interior range).

Solids by volume
36 ± 2 volume%

pH value
8 to 9

Application data

Remarks
Handle with care. Stir well before use.

Application equipment / methods
By brush, roller, airless spray or conventional spray.

Guiding data for airless spray
Nozzle tip
0.021–0.027″
Spray angle degrees
65–80°

Pressure at nozzle
140 - 190 kg/cm² (2100 psi)

Spreading rate per coat

Theoretical
9 m²/l - 12 m²/l

Spreading rate depends on film thickness applied, type of texture, surface porosity, imperfections, temperature, wastage during painting etc.

Recommended film thickness per coat

Wet
83 µm - 111 µm

Dry
30 µm - 40 µm

Film thickness will vary and are calculated as an average.

Thinner

Water

Dilution

The paint is ready to use after proper stirring. If thinning is required, water may be added up to a maximum of 5%.

Conditions during application

The temperature of the substrate should be minimum 10 °C and at least 3 °C above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying.

Drying times

Drying times are generally related to air circulation, temperature, film thickness and number of coats, and will be affected correspondingly. The figures given in the table are typical with:

Good ventilation (Outdoor exposure or free circulation of air)

Typical film thickness

One coat on top of inert substrate

The given data must be considered as guidelines only. The actual drying time and time before recoating may be shorter or longer, depending on the ambient temperature, film thickness, ventilation, humidity, underlying paint system, requirement for early handling and mechanical strength etc.

1. Recommended data given is, for recoating with the same generic type of paint.

2. In case of multi-coat application, drying times will be influenced by the number and sequence and by the total thickness of previous coats applied.

3. The surface should be dry and free from any contamination prior to application of the subsequent coat.

The drying time is measured by stated values:

Relative Humidity (RH) 50 %

Date of issue: 17.10.2019
Product code: 44522

This Technical Data Sheet supersedes those previously issued.
The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com.
Directions for use

Surface preparation
The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of form release agents/curing agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

Recommended paint system

Primer
Majestic Primer : 1 coat

Topcoat
Majestic True Beauty Matt(NEW) : 2 coats

Storage
The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Certificates
Complies to Singapore Green Label, Malaysia SIRIM Eco-Label and the Thai Green Label.

Tests
Wet Scrub Resistance Test measured according to SS5 Part F5: 2003 (2013)
Anti-Bacteria Test measured according to ISO 22196:2007.
Fungus Resistance Test measured according to SS 150 : 2015 (Annex A: Mildew Resistance Test)
Volatile Organic Compound Content Test measured according to GLS032 as per BS EN ISO 11890-2:2006.
Weather Resistant Emulsion Paint Interior Test measured according to TIS 2321-2549

Health and safety

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.
Detailed information regarding health and safety risks and precautions for the use of this product is specified in the product’s Safety Data Sheet.
First-aid measures, refer to section 4.
Handling and storage, refer to section 7.
Transport information, refer to section 14.
Regulatory information, refer to section 15.
