

# INFINITELY BETTER

**JOTASHIELD**  
SUPERIOR EXTERIOR PROTECTION

# JOTASHIELD INFINITY, THE PROVEN BEST PROTECTION.

Our paint panels were put through a series of brutal tests against some of Southeast Asia's most premium exterior paint brands.

**JOTASHIELD INFINITY won every time.**

## Florida Outdoor Weathering Test

Ranked as one of the world's highest UV rays, panels painted with premium exterior paint brands were placed under Florida's intense sun exposure, rainfall and humidity to test their strength against fading and peeling. And a year of testing in Florida equates to several years in other countries.

## Real Life Natural Exposure

Painted panels were exposed directly to the sun and rain to test their durability and dirt pickup for one year, at a 45-degree angle — making it harsher than usual, considering exterior walls are vertical.

## QUV Accelerated Weathering Test

As its name suggests, panels undergo a simulation of extreme UV rays and moisture exposure to test their protection against fading and overall degradation.

## Exposure for Dirt

Similarly, panels were angled at 45 degrees to see how well they repel dirt and dust.
