2020 – CELEBRATING COLOURS

2020, and a brand new decade begins. It's a time when the minds of many of us turn to change. We want to learn new things, travel or daydream more, to be more mindful or creative, or to cultivate serenity in our hearts and homes.

Each of us seeks ways to thrive in our everyday lives. Colour can be one of the simplest and most effective routes to creating an environment that inspires us. The right choice of colour can open pathways to wonder.

At Jotun, we are proud to help our customers find the shades that express their aspirations and identities, and create homes that inspire them. These pages celebrate the 12 new Jotun colours of 2020, each one capturing a different facet of personality or a new hope for the future.

It might be as a safari through an unexplored jungle, a voyage across a remote ocean, or as simple as adjusting our route to work and discovering something we never knew was there. Adventure is a mindset, not a destination.
