

JOTUN

Jotun Protects Property

**INCREASED
LEED
POINTS?
EASY WITH
PAINTS AND
COATINGS.
EASIEST
WITH JOTUN.**

**Green Building
Solutions**

Look at building green differently

Making a building as green as possible can be difficult to achieve. Green Building Solutions from Jotun makes it far easier to attain Leadership in Energy and Environmental Design (LEED) certification.

In fact, to reach 'certified' level, paints and coatings from Jotun can contribute with up to 27% of your required points. And at platinum rating, Jotun can contribute with up to 14% of the 80 points required. For a fraction of your overall budget. Put simply, Jotun's paint and coatings solutions are the easiest way to design, specify, beautify and protect greener buildings on the market.

There are four levels of certification. The number of points a project earns determines the level of certification.

Typical certification thresholds:

Increased LEED points? Easy with paints and coatings. Easiest with Jotun.

The importance of forward planning the interior and exterior materials and resources to be used when developing and constructing a building is crucial. This is demonstrated by more than 94,000 projects across 165 countries and territories participating in the LEED system.

Why is Jotun the easiest? We offer:

Green Building Products

Green Building Guide

Guide specification

Thorough documentation (including EPD)

Jotun's Green Building Solutions is the easiest way to design, specify, beautify and protect greener buildings.

The easy contribution to LEED points through three small steps:

Work out your building's requirements and identify certifications or requirements needed (e.g. LEEDv4 Platinum, ISO12944 corrosivity environment).

Find and select your supplier, and begin identifying products, using our downloadable guide specifications, making specifications even easier.

Identify the documentation you require, such as EPDs.

Green Building Solutions products

A wide product portfolio to cover each aspect of your green building requirements.

Jotun may in fact contribute to 11 different LEED points with its products and thorough documentation.

Increased LEED points? Easy with paints and coatings. Easiest with Jotun.
