

Grey has a way of suiting any style

Grey shades are our most popular Jotafloor colours, complementing architecture, adapting to various designs, and hiding tire marks better than other colours.

Colour adds functionality

Colour adds more than aesthetics. In spaces like car parks and airports, different colours for each level help visitors navigate easily.

Under your feet but top of mind

Flooring in any business endures the most wear, from factories and kitchens to warehouses and car parks. Our solutions make your floors durable and visually appealing.

Quality flooring is the foundation of a solid business

Jotafloor products are renowned for their strength, durability and reliability in the toughest floor coating applications. With our range of colour options, you can bring your design vision to life, providing beauty and additional utility.

Stay in touch

At Jotun, we don't just sell a high-quality product; we back it up with the highest quality customer service. We are your partner in achieving your project's goals. With industry-leading technical support and a track record of global market experience, our aim is to not only meet, but exceed your needs.

Please contact your local Jotun representative to learn more about how our products can play an important role in your projects.

For your line markings

Find your perfect colours of grey

All colours reproduced are shown as close to actual paint colours as modern printing techniques allow. Where colour matching is critical, an applied sample is recommended.

Elevate your design with bold colours

Colour shades for Jotafloor EP Glass Flake, Jotafloor EP Coating and Jotafloor EP SL Uni.
* Colour shades for Jotafloor PU Crete (refer Jotun sales personnel for more colour options).

Jotafloor not only come in a variety of finishes and colours, it also offers different ranges to cater to your specific needs, ensuring a robust and durable environment without compromising style.
