

**JOTUN**

Jotun Protects Property

# Industrial Floor Coating Solutions

***Jotafloor***

SUPERIOR FLOOR PROTECTION

# Almost a century protecting property

## Committed since 1926

---

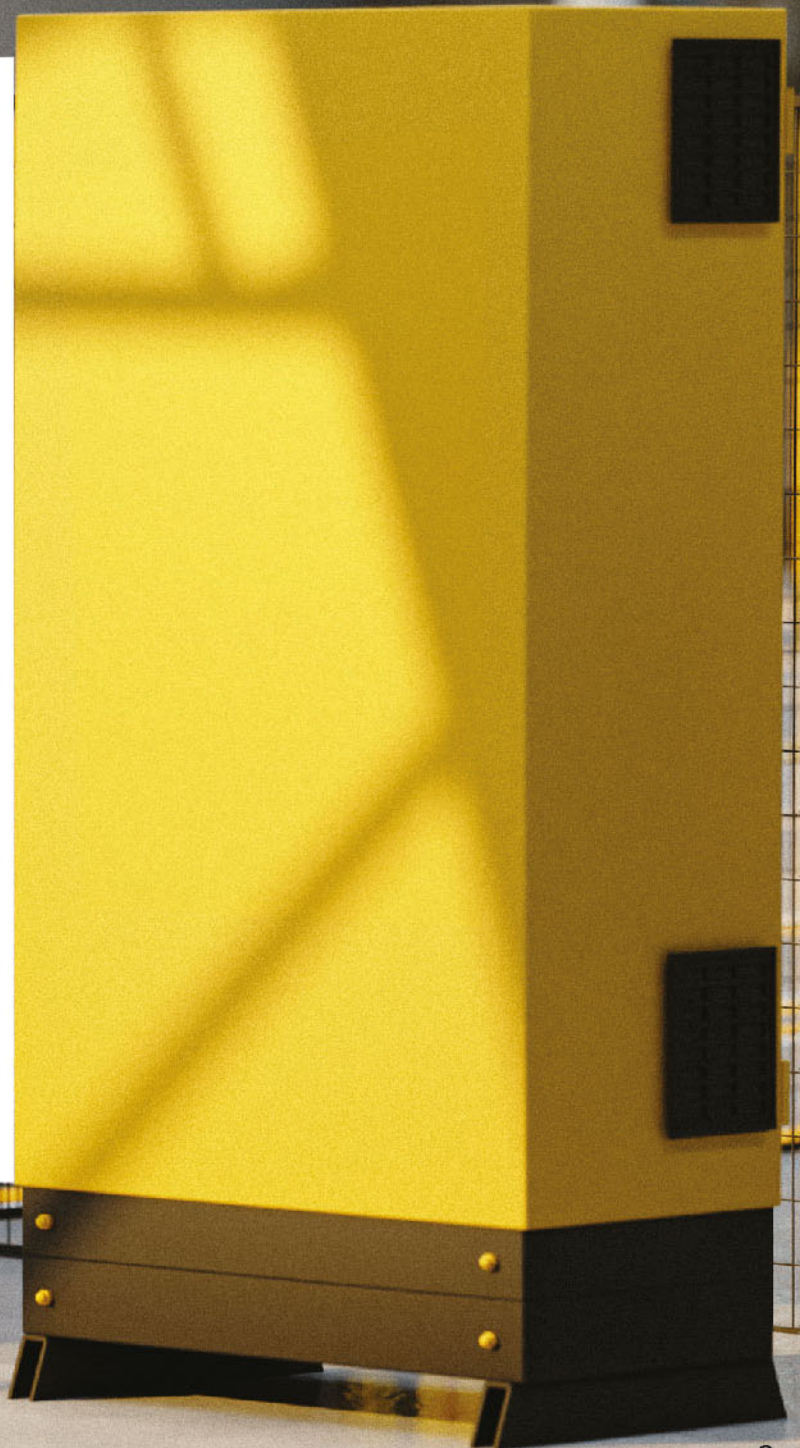

Since 1926 Jotun has been on a mission to **protect property** in every corner of the world. It began with a solution to one of the greatest challenges at the time – protecting ice going vessels travelling to the Southern Ocean from corrosion.

Today we protect assets in a wide variety of industries such as **energy, shipping, infrastructure and floors** – truly supporting any endeavor our customers take on.

# Enhance your workspace with *Jotafloor*

The floor is the most used part of any business. Whether in a commercial kitchen, a scientific laboratory or an automotive workshop, flooring is your foundation for success. That means durability, safety, maintenance and aesthetics are absolutely critical.

Discover how Jotafloor solutions not only protect your floors but also elevate your workspace to new heights of performance and appeal.

# Coatings at work

## Protecting your floors

---

Jotafloor has become a trusted name in floor coatings. Combining leading chemistry with outstanding technical support, the ever-expanding Jotafloor Floor Coating product range offers quality beyond question.

So: whatever your business or industry, Jotafloor has coatings that will work hard for you.

## DURABILITY

**Engineered to withstand the toughest conditions – heavy machinery, high foot traffic, chemical spills;**

Jotafloor doesn't just cover your floors but protects them against the rigors of industrial use.

## SAFETY

Safety is paramount in any industrial setting.

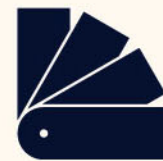

**Minimize accidents and maximize peace of mind with anti-slip properties,**

Jotafloor provides a safer working environment for your employees.

## MAINTENANCE

Maintenance shouldn't be a hassle. Enjoy a low maintenance floor with Jotafloor, **reducing your downtime and keeping your operations running smoothly.**

## AESTHETICS

Functionality doesn't have to compromise style. Jotafloor coatings come in a variety of finishes and colours, allowing you to **create an environment that's not only functional but also visually appealing.**

# Food and beverage industry

No one should eat off your company's floors - but with Jotafloor's solutions, everyone might be able to.

## Jotafloor PU CRETE PLUS

A high-performance, hygienic, hybrid polyurethane coating with the strength and durability for process industry applications.

Water Resistance

Slip Resistance

Increased Durability and Longevity

Temperature Resistant

Low VOC

Swift Installation Technology

Chemical Resistance

Anti-Microbial

Impact Resistant

Superior Mechanical Properties

HACCP Certified

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor PU Crete	1000	1
Jotafloor PU Crete	2000-5000	1

### Areas of use

Industrial Kitchen, Cold Storage, Meat Processing Plants/Fisheries, Fruits and Vegetable Market.

# Data centers

Electrostatic discharge events caused by floors are a danger to data centers. Well, at least they used to be.

## Jotafloor ANTI-STATIC

Jotafloor Anti-Static floor coating solution provides superior protection from electrostatic discharge events. The complete system prevents the accumulation of any static by dissipating it from the topcoat to the prime.

Highly  
Electrostatic  
Conductive

Self  
Smoothing

Seamless, Smooth  
and Easy to Clean

Provides  
Hygienic Surface

Wide Range  
Of Colours

Increased Durability  
and Longevity

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	2
Copper Tape Grid	-	-
Jotafloor Anti Static Primer	35-50	1
Jotafloor Anti Static	1500-2000	1

### Areas of use

Hospital, Arms and Ammunition, Storage Areas, Electrical Rooms, Electronics, Appliance Industry and Electrical Substation.

# Heavy duty warehouses

Floors of heavy duty warehouses need to be prepared for the toughest demands. Just imagine lifting an Airbus.

## Jotafloor EP SL UNI

Hassle-free self leveling solvent-free epoxy with 2 components, time saving and ease at application, leaving a beautiful seamless surface. Suitable for rubber, nylon and metal tyres, it can withstand a very high dynamic load.

Abrasion  
Resistance

Low VOC

Chemical  
Resistance

Water  
Resistance

Antimicrobial

Easy  
Maintenance

Impact  
Resistance

Increased Durability  
and Longevity

Superior Mechanical  
Properties

Self  
Leveling

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor EP SL Uni	1000-5000	1

### Areas of use

Factory, Aircraft Hangers,  
Laboratories, Pharmaceutical  
and Hospitals.

**HEAVY EQUIPMENT  
CAN OPERATE ON SITE**

# Automotive workshops

Work in an automotive workshop can be tough - just ask your floors. Without the right protection, constant strains can lead to costly damage.

## Jotafloor EP GLASS FLAKE

Solvent-free epoxy that is reinforced with glass flake. Designed to withstand abrasion and impact making it suitable for floors that go through extreme wear and tear.

Crack Bridging

Water Resistance

Chemical Resistance

Slip Resistance

Abrasion Resistance

Impact Resistance

Superior Mechanical Properties

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor EP Glass Flake	300-400	2

## Jotafloor EP COATING

Well-rounded solvent-free epoxy coat with improved longevity, strength and performance while offering outstanding mechanical properties suitable for a variety of environment.

Easy Application

Multiple Usage Areas

Water Resistance

Longer Potlife

Low VOC

Impact Resistance

Chemical Resistance

Easy Maintenance

Superior Mechanical Properties

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor EP Coating	300-500	2

### Areas of use

Industrial Workshops, Helipads and Battery Room.

# Warehouses

Warehouses store goods, but also hidden costs: cracks and delamination of the floor can lead to an expensive failure.

## Jotafloor EP COATING

Well-rounded solvent-free epoxy coat with improved longevity, strength and performance while offering outstanding mechanical properties suitable for a variety of environment.

Easy Application

Multiple Usage Areas

Water Resistance

Longer Potlife

Low VOC

Impact Resistance

Chemical Resistance

Easy Maintenance

Superior Mechanical Properties

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor EP Coating	300-500	2

## Jotafloor TOPCOAT E

Beautiful green compliance solvent-free epoxy coat with multiple choices of colours, which allows freedom of design. Well performing as topcoat for light to medium duty floor, ensuring your floor looks good all the time.

Abrasion Resistance

Chemical Resistance

Antimicrobial

Wide Range Of Colours

Low VOC

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor Topcoat E	100-200	2

### Areas of use

Service Centers, Back of House, Plant & Mechanical Room.

# Sports complex

The best sports complexes are the ones that can and will be used. Over and over again.

## Jotafloor PU TOPCOAT

Excellent weather resistant and durable finish to the system with solvent-based polyurethane coat. It offers resistance to a wide range of contaminants and provides perfect finish for longer period.

Wide Range  
Of Colours

Easy  
Application

UV  
Resistant

Easy  
Maintenance

Longer  
Pot Life

### Recommended System

Product	DFT, $\mu\text{m}$	# Coats
Jotafloor Easyflow Primer HS	150	1
Jotafloor Non Slip Aggregates*	Fine	1
Jotafloor PU Topcoat	60	2

*\*Non-Slip Aggregate is optional, available in  
Fine, Medium & Coarse*

### Areas of use

Stadium, Pedestrian Walkways  
and Staircases.

**ATTENTION  
PLAYING  
ALLOWED**

# Experience superior floor protection with our range of *Jotafloor*

Jotun's expertise includes concrete protection and decoration which pairs proven, innovative solutions with deep practical experience. This knowledge is realized in its range of floor protection products.

To protect, repair and upkeep concrete for construction, the Jotafloor range of solutions and systems offer lasting protection to extend floor life, keeping them pristine with rich colours. Their qualities safeguard against chemical spills, heavy traffic, abrasions and other impacts.

## SURFACE PREPARATION

**Jotafloor**  
FILLER PLUS

**Jotafloor**  
SEALER

**Jotafloor**  
EASY FLOW PRIMER HS

**Jotafloor**  
SCREED PRIMER

**Jotafloor**  
DAMP BOND

**Jotafloor**  
MOISTURE GUARD

Poor surface preparation is the major cause of floor coatings failures. Using correct surface preparation methods and equipment is essential to secure cleanliness and surface profile necessary for the good adhesion and performance of floor coating systems.

## SYSTEM SOLUTION

<p><b>VERY HEAVY DUTY</b></p>	<p><b>Jotafloor</b> PU CRETE PLUS</p>
